

JRG RETRACTABLE HORIZONTAL/VERTICAL STEEL CABLE 15MT - MAXIROLL

REF: 117106000080815SF

Description:

Retractable wire rope JRG tested for horizontal and vertical use. Its reduced weight and dimensions make this device easy to carry, reducing operator fatigue. The lower carabiner has a rotating head with a loose ring to prevent the cable from twisting if the operator does so. By preventing the cable from twisting, the life of the device is extended.

Features:

- Category III PPE
- Lightweight and easy to carry
- Connected to a quick-release carabiner clip
- Tested for vertical and horizontal use
- Certified for maximum load of 120 Kg

Materials:

Case: Nylon
 Handle: Galvanized steel
 Carabiner: Steel

Data sheet:

TECHNICAL DATA	
Working length	15 m
Cable Diameter	4,8 mm
Static Resistance	12 Kn during 3 min
Maximum Working Load	120 kg
Weight	8,2 Kg
Dimensions	aprox. 284x790x118 mm

TECHNICAL DATA - ROTATING CARABINER	
Material	Steel
Type	EN 362 - Class T
Opening	21 mm
Resistance	23 Kn
Weight	0,5 Kg
