

SYNTHETIC LEATHER BOOT S3 WR HRO SRC ESD METAL FREE - X430

REF: 13010700000X430SJ

Description:

Mid-cut safety boot with a breathable synthetic leather upper, protective composite toecap, heat resistant outsole as well as an energy absorption heel. Suitable for orthopedic insoles and orthopedic alterations. Oil and fuel resistant with anti-piercing, slip-resistant, anti-static and waterproof properties.

Features:

- Breathable synthetic leather upper provides a high degree of wearer comfort combined with durability
- Cold insulated (CI) safety shoes keep your feet warm in cold environments
- Heat resistant outsole (HRO) resists high temperatures up to 300°C
- Suitable for work in an environment with high humidity and presence of oil or hydrocarbons
- Robust composite toecap to protect the feet of the wearer against falling or rolling objects.
- Puncture resistant textile midsole to prevent sharp objects from penetrating the outsole
- Heel energy absorption reduces the impact of jumps or running on the body of the wearer
- Waterproof (WR) footwear prevents liquids to enter into the shoe
- ESD provides the controlled discharge of electrostatic energy that can damage electronic components and avoids risks of ignition resulting from electrostatic charges
- The outsole is resistant against oil and fuel
- Slip-resistant, anti-static and waterproof properties

Composition:

Upper: Synthetic Leather
