

# HELMET MEDIUM VISOR WITHOUT VENTILATION WITH MANUAL ADJUSTMENT - EVO3

REF: 146114000AJE160JP

## Description:

The EVO3 Comfort Plus helmet combines a super strong shell for superior all-day protection in the widest variety of environments, with the comfort benefits of the Evolution 3D-Adjustment harness system. EVO3 is an advancement of the long-established MK2 and Mk3 helmets, the EVO3 maintains the JSP signature style while incorporating developments first seen in the EVO8. Featuring a 6-point terylene cradle harness system for added comfort and OneTouch manual adjustment, adjustable using one hand in one quick motion.

## Features:

- Manual adjustment possible with a single movement
- Durable high-density polyethylene (HDPE) shell
- 6-point terylene cradle harness system offers great comfort
- Porous PU coated cotton core band for maximum sweat absorption

## Composition:

Shell: High-density polyethylene (HDPE)  
Harness: HDPE / LDPE / Textile

## Available colors:

■ White ■ Yellow ■ Orange ■ Red ■ Green ■ Blue
