

MONOLENS SAFETY SPECTACLES POLYCARBONATE - 590-G

REF: 21109000000590GCX

Description:

The Climax 590 spectacles have been designed to offer effective protection against impact of high-speed and low energy particles. Therefore, the spectacle is able to withstand the impact of small projected particles, such as wood, metal or plastic chips or filings, pieces of stalks and plant twigs produced when using gardening machinery, etc. The speed of these particles should not exceed 45 m/s. Their special design offers minimal limitation of lateral vision and their optical neutrality and extreme lightness enables them to be worn for long periods without causing discomfort.

Features:

- Particle impact protection up to 45 m/s
- Ultra lightweight for long term use
- Minimal side vision limitation
- Optical class 2
- Protection grade F against the risk of high-velocity, low-energy particle impacts
- Protection against glare from the sun: 5; Protection grade 4.1

Composition:

Polycarbonate

Colors:

Lens: Smoked Grey
Frame: ■ Black
