

3M P3 R PARTICULATE FILTERS 5935

REF: 5411070000376753M

Description:

The 3M 5935 Particulate Filters can be used with Series 6000 filters for combined protection against gas and particulates (in conjunction with a 501 filter retainer), or separately (in conjunction with a 603 filter platform and a 501 filter retainer). Our filters are lightweight, designed to optimize your field of view and feature a bayonet-type connection.

Features:

- P3 R protection against solid and liquid particles
- For use with 3M Series 6000 Gas and Vapor Filters in conjunction with a 501 retainer
- Can be used with any 3M Reusable Mask that features a bayonet-type connection.
- Designed to optimize your field of vision
- Helps you work safely in hazardous environments
