

3M PARTICULATE FILTER P2 R 2128

REF: 5411070000523483M

Description:

The 3M P2 R Particulate Filters 2128 protect against fine dusts and oil/water based mists. In addition, the filters offer relief from nuisance level organic vapours and acid gases. Suitable for use with all 3M half and full face masks.

For breathing protection against solid and liquid particles, relief against nuisance-level organic vapours and acid gas, as well as protection against ozone up to 10 x OEL, use 3M Particulate Filters, 2128. They're flexible enough to use across our range of reusable half and full-face masks, for safe working in hazardous environments. Our lightweight, P2 R filters combine protection with comfort. They offer low breathing resistance and good balance when connected to your mask, and their small size means they fit comfortably under welding shields. They can be clicked into place quickly and easily using the 3M Bayonet Filter Attachment System, and they can be used with any 3M™ Reusable Masks with a bayonet-style connection.

Features:

- Protect against fine dusts and oil/water based mists
- Offer relief from nuisance level organic vapours and acid gases
- 3M Bayonet Connection: Flexible system for connection to 3M half and full face masks
- Lightweight with low breathing resistance
- Bayonet-style connection fits a wide range of half and full-face 3M Reusable Masks
- Twist and click for a quick and easy fit
