

# 3M REUSABLE HALF FACE MASK 7501

REF: 5411070001041763M

## Description:

The 3M 7501 Reusable Half Face Mask has a dual bayonet-type filter design that fits a wide variety of lightweight filters. The Series 7500 Small Size Reusable Mask features a 3M Cool Flow Valve, a soft sealing surface for comfort, and a single head attachment with an optional down-strap design.

## Features:

- A soft sealing surface and low breath resistance make them comfortable to wear for long periods
- Cool Flow Valve helps reduce heat build-up by allowing warm, exhaled air to escape
- Dual filter design for even weight distribution and minimal field-of-view obstruction
- Bayonet-type connection fits a wide range of filters
- Single head attachment and optional down strap provide stability and are easy to use
