

# REUSABLE HALF-MASK MEDIUM 6200 SERIES

REF: 5411070001468473M

## Description:

The 3M 6300 Series Reusable Half Face Mask is constructed from a lightweight, comfortable elastomeric material with a dual bayonet filter design, head support attachment and easily adjustable neck strap. A discreet, well-balanced, cost-effective, low-maintenance and easy-to-use half mask designed to be simple and comfortable to use for working during long periods of time. The bayonet connection fits a wide range of lightweight dual filters depending on your individual needs for gas, vapor and particulate protection. The dual filter design offers great weight balance and the low profile means minimal impact to your field of vision and better compatibility with welding and grinding shields. Can be used with 3M Supplied Air Systems for added convenience and flexibility and attaches to all 3M 2000, 5000 and 6000 Series filters (except 3M 6098 or 6099). The 6000 Series has a range of replacement parts and accessories specially designed to help you maintain the right level of comfort and protection when parts become worn or damaged.

## Features:

- Economical, low maintenance and easy to handle
- Compatible with multiple filters with bayonet connection to protect against gases, vapors and particulates
- Easy-to-adjust head support and neck strap attachment
- Dual filter design for even weight distribution and minimal field of view obstruction
- Lightweight elastomeric material for long-term comfort
