

# 3M FILTER RETAINER 501

REF: 5411071000661033M

## Description:

Filter Retainer 501 is a component that allows the combined use of chemical and mechanical filters. It is used to fit particulate filters 5N11 or 5935 over 3M 6000 Series chemical cartridges, or the same filters together with adapter 603 (cartridges and filters are sold separately). It is an approved component for 3M breathing systems.

## Features:

- Easy to fit in position on the filter
- Allows the combined use of chemical and mechanical filters
- Used to attach particulate filters 5N11 or 5935 over chemical cartridges or adapter 603

**Composition:** Polypropylene

**Dimensions:** 4" high x 8.5" long x 4.5" wide

**Color:**  Translucent White
