

3M AURA PARTICLE MASK FFP3 WITH VALVE - 9332+

REF: 5411071001012493M

Description:

The 3M Aura 9332+ particle mask provides FFP3 respiratory protection with a fold-out 3-panel design, low breath resistance, and an embossed top panel that allows for reduced fogging of the eye protection. Includes an innovative chin flap for easy adjustment and the headbands are color coded for quick and easy identification. The 3M Cool Flow valve can help reduce heat build-up in hot, humid conditions.

Features:

- The original 3-panel design allows for greater facial movement
- Low-resistance filter technology helps you breathe easier
- The 3M Cool Flow Valve helps reduce heat build-up in hot, humid conditions
- The sculpted top panel adapts to the contours of the nose and face for an effective seal
- Embossed top panel helps reduce fogging of eye protection
- Chin flap designed for easy positioning and adjustment
- Easy to store thanks to the fold-out design and individual packaging

Weight: 15 grams

Color: White
