

3M GAS VAPOUR AND PARTICULATE FILTER A1B1E1K1P3 R + FORMALDEHYDE - 6092

REF: 5411071001043173M

Description:

The 3M gas, vapour and particulate filters, 6092 have a bayonet-style connection that fits any half and full-face 3M Reusable Masks, and they're designed to optimise your field of vision. The lightweight filters offer well-balanced ABEK1P3 R breathing protection for hazardous environments.

Features:

- Protects against gases, vapours and particulates
- Bayonet fitting allows filters to be twisted and clicked into place for ease of fitting
- Combines protection with comfort and balance
- Designed to optimise your field of vision
- Lightweight with low breathing resistance
- Twist and click for a quick and easy fit
