

# VENTILATED UVICATOR HELMET W/SWEAT BAND - G3000CUV

REF: 5411470000397133M

## Description:

The G3000 helmet is intended for use in environments with high levels of protection requirements, excellent ventilation and maximum field of vision. The red disk informs when it is time to replace the helmet. Lining that can be rotated 180° which makes it possible to wear the helmet upside down, ideal for, working in tight spaces and climbing. Optimized ventilation with more ventilation holes than a conventional ventilated helmet.

## Features:

- UV sensor indicates when the helmet should be replaced
- Optimized ventilation
- Easily replaceable sweat absorbing band
- Short brim for a wide field of vision
- Attachment point for accessories
- Rotating liner

**Composition:** Helmet: ABS with UV stabilization | Absorber band: Plastic

**Size:** 54 - 62 cm
