

# WORK POSITIONING DEVICE - PROT-3

REF: 201060600000032PK - 2m  
201060600000033PK - 3m  
201060600000034PK - 4m

## Description:

The PROT-3 work positioning device is a personal protective equipment for the positioning work and preventing falls from heights (EN 358). The rope is used to reach a safety position while working that reduces the free fall distance by 0.6 m. The static working positioning force of the PROT-3 rope is 15 kN. The maximum working positioning length of the PROT-3 rope is 20 m.

## Materials:

- Kernmantle rope\* - Polyester
- Thimbles - Polypropylene
- Covers seams - Polypropylene
- Adjuster - Stainless Steel
- Connector AZ011 - Galvanized steel
- Protective tube - Polyester
- Identity label - PCV

\*The breaking strength of synthetic fibers are at least 0.6 N / tex.

## Available sizes:

2m	10m
2,5m	15m
3m	20m
5m	-
